—"The last link is broken," the fellow said when he kissed his girl goodbye forever at her request, because her parents wished a dissolution. A few days after he received a note saying, "Dear George, there are plenty more links, come and break them."—Ken- neth State Journal.

—He was a very happy gathering at Father Benjamin Allen's on Wednesday, the 5th instant, to celebrate with him and grandma Allen, their fiftieth anniversary of wedded life. Though somewhat feeble in body, in mind and spirit they are as active and lively as in long years ago. They remarked that probably no two persons had lived together so long with fewer misunderstandings and less private difficulties. They appeared young again when the large company sat down with them to a sumptuous wedding feast prepared for the occasion. The mind went back fifty years when first they pledged their faith one to the other "for better or for worse". Some valuable presents were given them, with the assurance of all present of kindest regards and a wish that the remaining days of their life may be their best.

—It is useless to go to St. Joseph for an organ or a sewing machine, when you can buy to advantage by calling on F. S. Rostock, Jr.

—The St. Joseph Exposition proved to be the most successful ever held in that city. Secretary Earnst is without a superior in the northwest.

—J. W. Balfrey has opened a restaurant and bakery in Forest City, just east of the bank, where he is prepared to serve you with a meal at any hour.

—John G. Cowan & Son, New Point, took four first and one second premium at St. Joseph Exposition on short-horns; he also took two first and two second premiums at Marville.

—Col. J. W. Stocker, director and member of the committee on transportation, reports that the C. & B. & Q. the C. & N. W., the C. & P. & P., and the C. M. & St. P. Railroads will each sell excursion tickets for the reunion at Marville, Mo., from all points where twenty-five tickets or more can be sold, for four cents per mile, round trip, (that is, two cents each way). The Wabash St. L. & P., and the K. C. St. Jo & C. B. roads have also fixed upon the same rates.

—A farmer of northern Holt, who owns land on both sides of a stream, which is spanned by a bridge on a public road, has made a practice for some time past of taking out several planks from the bridge for the purpose of keeping his own cattle and hogs on either side of the stream as he may desire. It seems inconceivable that any one of ordinary intelligence could do this without knowing it is wrong, and that he incurs the risk of having a severe penalty imposed upon him for so doing. Some one ignorant of his act may undertake to pass over that bridge during the night and lose his life. Better desist from this practice and repair your fences.

—There was a very happy gathering at Father Benjamin Allen's on Wednesday, the 5th instant, to celebrate with him and grandma Allen, their fiftieth anniversary of wedded life. Though somewhat feeble in body, in mind and spirit they are as active and lively as in long years ago. They remarked that probably no two persons had lived together so long with fewer misunderstandings and less private difficulties. They appeared young again when the large company sat down with them to a sumptuous wedding feast prepared for the occasion. The mind went back fifty years when first they pledged their faith one to the other "for better or for worse". Some valuable presents were given them, with the assurance of all present of kindest regards and a wish that the remaining days of their life may be their best.

—The corn crops have been affected by the late frosts.

—Ducks and cranes are increasing in number in our lakes.

—Carl Hostetter, of San Jose, California, is in the city, the guest of his uncle, E. P. Hostetter.

—Tom Hinde is building a ware room in the rear of his drug store; it will be 17 x 30 feet. Mr. Lora Baker has the contract.

—The first postal note presented for payment at this office was presented by Mr. Samuel Stuckey, and was issued from the Mound City postoffice.

—James L. Allen will attend the St. Louis Fair and the Louisville exposition. He will also visit his aged mother who resides at Logansport, Indiana.

—A delightful event was the party given last Saturday evening at the residence of George P. Luckhardt to their daughter Anna upon her fourteenth birthday.

—Mr. John Shatts, of Joliet, Illinois, accompanied by his daughters, Miss Mary and Mrs. Tall and her husband, are in the city, the guests of his son, Mr. Henry Shatts.

—Dr. Gentry and wife, of Wyandotte, Kansas, were in our city Saturday and Sunday, as the guests of Mr. and Mrs. Otto Krause. Dr. Gentry is editor of the E. A. U. Advocate of that city.

—N. C. Hatfield, grain buyer, Forest City, is now ready to buy all the grain you can take to him, and pays the highest cash market price. He can be found in the store building formerly occupied by Joe Groves.

—One day last week as three young ladies were coming to town in a buggy, raising their umbrella, the horses took fright and became unmanageable, throwing them out of the buggy, and breaking the arm of Miss Missouri Kelley, one of the occupants.

—L. H. Edwards was called to Hiawatha, Kansas, last week by the serious illness of his daughter, Mrs. Noland, but by careful treatment she is now convalescent. Mr. E. is delighted with Hiawatha and thinks of moving there if he can dispose of his property here. We hope he will reconsider his intentions and remain among us, for we can ill afford to lose as good a citizen as Mr. Edwards.

—The Southwest Iowa and Northwest Missouri Veteran Association will hold its annual reunion at the fair grounds, at Marville, Mo., Sept. 25, 26, and 27, 1883. Eminent speakers to-wit: Generals Logan, Cookrell and others, are expected. A grand street parade on the 25th composed of old soldiers, sailors, uniformed societies, etc. There will also be during the exercises guard mounting, drilling, dress parades and an extensive and interesting sham battle, good quarters and cooked rations will be furnished. All the boys are expected to join organized companies, or be assigned to them on arrival. Each is expected to furnish himself with a blanket, plate, knife, fork and spoon. Reduced rates on all railroads. All ex-soldiers who desire attending this reunion are invited to unite with Christian Meyer Post G. A. R., at Oregon. They will please send their names, with company and regiment to W. T. Eddy, Quartermaster.

—The new Postal Note books have arrived at the postoffice, ready for service. The notes are bound into books after the order of tobacco licenses or of bank notes two on each page, and each is separately numbered, so that counterfeiting or duplicating is an impossibility. Each note is about the size of a bank bill and attached to a stub of record or memoranda. In color they are between a lemon and an orange, with a brown and black face and green back. For 3 cents any sum from 1 cent to \$1.99 can be mailed to any post office in America, and the certificate is good three months from date. The date is on one side the face of the note and the amount on the other, to be punched similarly to a railroad ticket. The name of the postoffice and amount given on the face. The notes are issued from 1883 to 1894, and are made in New York City from engraved plates the same as greenbacks.

—Worman, the chicken buyer is here again. See his advertisement.

—D. Foster & Bros. had two horses to die very suddenly one day during last week.

—C. H. Hatfield, of Forest City, is now buying apples. He is paying the top of the market.

—Rev. Samuel Carothers will preach next Sabbath at the Triumph school house at eleven o'clock; at the United Brethren church at three o'clock and in Oregon at night.

—Mr. J. W. Dunn, of Maitland, had on exhibition at St. Joseph fair, a fine lot of horses. He took premiums on the best five year old stallion and the best two year old stallion.

—Mr. A. Gemecker was showing a pear on the streets last Tuesday that was a whopper, measuring twelve inches in circumference and weighing one pound.

—An excursion train will run from St. Joseph to the Maitland fair on Friday and Saturday, leaving Forest City about 8 A. M. and returning about 8 P. M. Our citizens should avail themselves of this excellent opportunity of attending the fair.

—Troops of bright, happy faced children, with loads of books, thronged the sidewalks Monday last. Teachers should remember that the young heads are yet full of summer vacation, and it will take weeks to get them down to algebra and grammar. Go slow—don't crowd the infants.

—At the races in Forest City last Saturday, large delegations from Bigelow, Craig, Mound City and Oregon were present. Quite an exciting time was had. Money was plenty and considerable changed hands. A. P. Davenport's mare won the race with ease. The best of feeling prevailed throughout. John W. Stokes was master of ceremonies.

—Last Monday about noon or a little after, and while Mrs. John Peters was busy in boiling grapes, she happened to see a pan containing hot grapes on the floor, and as her attention was called to something else, her little boy baby got into them somehow and was so badly scalded that death resulted in about two hours thereafter. Mr. and Mrs. Peters have the sympathy of the whole community in this their hour of sorrow.

—Judging from appearances the Fairfax Chief must be printed on a cheese press. Journal. Better that than for the editor to have a cheese head—Chief. Certainly. But when a man like the editor of the Chief has a cheese press and a cheese head, he is a subject of commiseration. You have our sympathy, neighbor.—Rock Port Journal.

—The Chief must remember there is more head on the Journal than on any other paper in the northwest.

—The man who runs a newspaper is always in a hot box. Only the other day a curious-looking specimen of the genus homo approached us and said it would be a blessing if there were no papers in the county. We agreed with him and asked him how many he read. He said, as he bristled up like a porcupine with the collar, that he didn't read any because he was too busy tending to the milk for the old woman. "There it goes, you see! Another intelligent subscriber lost."

—The society for the prevention of cruelty to animals might find a fruitful field for the exercise of their benevolence in the freight cars in which tramps usually ride. In order to evade the impatient gaze of the brakemen they are compelled to keep the cars closed while the train lies at stations thus almost suffocating, during hot weather. A proper regard for their comfort would seem to require better ventilated lumber cars for their transportation. Let the afore-said society take notice of this.

—No good citizen can be without his own county paper. Without it, he is comparatively both blind and dumb. Blind to what is going on in his neighborhood for the benefit of his race, and dumb because he, not knowing, can't tell it. He places himself in the position of those who have eyes and see not, and ears, but hear not. It would be an act of charity to all such, and a benefit to the community as well, if some well-wisher to his race would donate the sum of an annual subscription.—King City Chronicle.

—Washing harness with warm water and soap soon injures the leather. All varnishes, and blacking containing varnish are injurious. When a harness becomes rusty give it a coat of grain black. Before applying this, wash the grain side of the leather with potash water, cold, until the grease is removed. After the leather is quite dry apply the grain black, and then oil and tallow. This fastens the color and makes the harness flexible and soft. Grained harness can be cleaned by a cloth moistened with kero-line, but should be immediately washed and oiled afterward.

—Miss Edna Lukens, we are glad to note, is improving.

—Mr. John Willard, of this city, is lying very ill in Kansas.

—Services at the Union school house next Sunday morning and evening by O. C. Hill.

—The corn crop of this county barely escaped destruction by frost last Sunday morning.

—Adrian Pinkston "is talking of taking a trip to Marysville, Kansas, in two or three weeks."

—The winter term of the Woods school will begin next Monday, with Cynthia Wright as teacher.

—Miss Julia Massie, a charming young lady of Fayetteville, Arkansas, is visiting relatives near Oregon.

—Miss Bettie Burgess, of Forest City, is visiting friends in Marysville, Kansas. She will be absent two or three weeks.

—W. R. Herschberger, one of St. Joseph's popular clerks was among his many friends in Oregon, the past week.

—Mrs. W. T. Eddy and Mrs. L. A. Perkins, made entries of several fancy articles at the Maitland fair, this week.

—T. F. McKane, editor of "The Standard," Galva, Ill., is in our county, visiting his brother-in-law, Wm. Kissick.

—Mrs. Warren B. Davis and daughter are in Sabatha, Kansas, the guests of Mrs. Davis' daughter, Mrs. Harry Farragher.

—C. W. Thomas has made important improvements to his office, to facilitate his rapidly increasing business. His "study" presents our idea of lawyer's sanctum.

—The Holt County Horticultural Society is represented at the Omaha fair by Messrs. N. F. Murray and J. N. Menifec; at the Maitland fair by Mr. Neal Hoblitzell.

—Mr. and Mrs. Robinson and Mrs. White returned from their visit to the northern lakes last Friday. They remained a few days in our city, the guests of Mr. Robert Montgomery.

—Charlie Ambrose, representing the hardware firm of Schultz & Hosen, St. Joseph, was in Oregon last week and gave us a pleasant call. Charlie is a fine, wide-awake boy and we predict success for him "on the road."

—The Bucher & Curti thresher was entirely destroyed by fire last Thursday night, while standing in the Christ Fuhrman stack yard. Mr. Fuhrman lost about 100 bushels of wheat and all the straw that had been threshed. It is thought to be the work of incendiaries.

—Mr. Ira Peter has just made the purchase of a new fire proof safe of the latest style at a considerable of an outlay. He can now keep with safety the notes of his various customers, and more especially the court house warrants. His old safe is now offered for sale.

—All soldiers expecting to attend the reunion at Maryville with Christian Meyer Post, are requested to send in their names at once, as muster roll must be sent forward by September 18, in order to obtain rates and have quarters set apart for us. Send your name to D. P. Dobyas, Oregon, Missouri. Returns will be furnished to all who attend. Send in your names with rank, company and regiment.

—Mr. H. E. Denny, who is now running a thresher, informs us that he has threshed thus far in the season, 9,215 bushels wheat, 8,402 bushels oats, 1,969 bushels rye and 28 bushels timothy seed. That average yield has been: spring 15 bushels, fall 22 bushels, rye 20 bushels, and oats about 40 bushels. The grain is all of excellent quality, and farmers are well satisfied with the yield. This is certainly a fine showing, and is an evidence that our soil will produce wheat if properly cared for.

—The Maitland fair made a splendid start Monday, showing more life and animation than one usually sees on commencement days of stocks, agricultural and mechanical shows; yet it is but few of the county fairs of the state approximate in magnitude and importance Maitland's annual gathering, hence it is no matter of wonder that the opening day started with so much life and vim. Floral hall especially was a scene of preparation and stir, exhibitors asking space, receiving attention as fast as possible from Secretary Welber. The display in this department is good—better than last year, especially fruits and vegetables. The stock entries are nearly double that of last year, while the attendance is much larger. Excursion trains from St. Joseph will run Thursday and Friday. Arriving at Maitland at 10.30 A. M. and leaving Maitland at 6 P. M.
